

WB p. 44/12 – model solutions

12a)

- you have to walk on / aren't allowed to leave the paths
- 200 days of rain / 200 days when it rains
- when the weather is really bad or when there's a storm
- to relax ... / when the snake wants to relax ...
- that we could try different ways how to make a film
- don't go / you aren't allowed to go swimming in the lake

12 b)

- My favourite national park is the Black Forest National Park. Read more to find out why you should visit it!
- Animals: The fastest bird in the national park is the 'Wanderfalke' (peregrine falcon). It chases smaller birds and can fly up to 300 km/h.
- Another awesome animal is the 'Kreuzotter' (viper). This snake is the most venomous animal here. It eats smaller animals like mice and loves warm places to relax.
- The weather: It isn't always good. There are 200 days of rain a year and lots of snow in the winter.
- Rules:
 1. You aren't allowed to leave the paths.
 2. When the weather is really bad or when there's a storm, you aren't allowed to visit the park.
 3. Wear hiking boots.
 4. Always be careful because trees could fall down.
 5. You aren't allowed to go swimming in the lakes.
- Special activities for teens: There's a camp where teenagers can learn how to make a film. That's a great way to find out more about the park and the different steps that are necessary to make a film. People who take part can post their films on the website of the national park.
