

## Politics in Britain

The British p\_\_\_\_\_ lives at 10 Downing Street in London. He is not the h\_\_\_\_\_, that's actually King Charles III. His t\_\_\_\_\_ is in Buckingham Palace, but his c\_\_\_\_\_ is in the Tower.

Britain may have a king, but it is a d\_\_\_\_\_.! Why? Well, the people e\_\_\_\_\_ the g\_\_\_\_\_. So today the king is no longer very powerful, he only r\_\_\_\_\_ the state. Some things about the king are funny: the king may not v\_\_\_\_\_ and doesn't need a p\_\_\_\_\_ or a d\_\_\_\_\_.

The most important political institution is the P\_\_\_\_\_, which meets in Westminster Palace. They make l\_\_\_\_\_ and control the government.
